

QUESTIONS

Q1

Student :
10 marks

Q2

Atm
10 marks

Q3

Tax
10 marks

3/3 answered

Q1 Student :

10 marks

Write a program to enter the mark of a student in four subjects. Then calculate the total and aggregate. Display the grade obtained by the student, if student scores an aggregate greater than 75% then grade is distinction

Your Code

```
1 import java.util.Scanner;
2 public class main{
3     public static void main(String[] args){
4         Scanner sc=new Scanner(System.in);
5         int []a=new int[4];
6         int sum=0,i;
7         double avg;
8         for(i=0;i<4;i++){
9             a[i]=sc.nextInt();
10            sum+=a[i];
11        }
12        avg=sum/4;
13        if(avg>75){
14            System.out.println("grade secured : id distinction: "+avg);
15        }
16        else{
17            System.out.println("did not secure id distinction grade: "+avg);
18        }
19        sc.close();
20    }
21 }
```

Input

90
90
90
90

Output

grade secured : id distinction: 90.0

Q2 Atm

10 marks

write a program to print the total amount available in the atm machine with the conditions applied total denominations are 2000, 500, 200,100, get the denomination priority from the user and the total number of notes from the user to display the total available balance to the user

Your Code

```
1 import java.util.Scanner;
2 public class main{
3     public static void main(String[] args){
4         Scanner sc=new Scanner(System.in);
5         int []pri=new int[4];
6         int []notes=new int[4];
7         int i,sum=0;
8         for(i=0;i<4;i++){
9             pri[i]=sc.nextInt();
10        }
11        for(i=0;i<4;i++){
12            notes[i]=sc.nextInt();
13        }
14        for(i=0;i<4;i++){
15            sum+=(pri[i]*notes[i]);
16        }
17        System.out.println("total available balance: "+sum);
18    }
19 }
```

Input

200 100 2000 500
10 5 2 2

Output

total available balance: 7500

Q3 Tax

10 marks

Write a program to calculate tax given following condition :

If income is less than or equal to 150000 then no tax

If taxable income is 150001 – 300000 the charge 10% tax

If taxable income is 300001 – 500000 the charge 20% tax

If taxable income is above 500001 the charge 30% tax

Your Code

```
1 import java.util.Scanner;
2 public class main{
3     public static void main(String[] args){
4         Scanner sc=new Scanner(System.in);
5         int inc=sc.nextInt();
6         double tax;
7         if(inc<150000 && inc==150000){
8             tax=0.0*inc;
9             System.out.println("zero tax applied"+tax);
10        }
11        else if(inc>=150001 && inc<=300000){
12            tax=inc*0.1;
13            System.out.println("10% tax applied: "+tax);
14        }
15        else if(inc>=300001 && inc<=500000){
16            tax=inc*0.2;
17            System.out.println("20% tax applied: "+tax);
18        }
19        else if(inc>=500001){
20            tax=inc*0.3;
21            System.out.println("30% tax applied: "+tax);
22        }
23        else{
24            System.out.println("invalid input");
25        }
26        sc.close();
27    }
```

Input**Output**

```
20% tax applied: 60000.200000000000000004
```
